

A Family Company Since 1919

WISCONSIN PLATING RECOMMENDED FOR ISO 9001-2000 REGISTRATION

RACINE, WISCONSIN, USA, July 30, 2003 - Wisconsin Plating Works of Racine, Inc. has upgraded their Quality Management System from ISO 9002-1994 to ISO 9001-2000. Auditors from Perry Johnson Registrars, Inc. of Southfield, Michigan conducted a registration audit on 7/17/2003 and have certified that Wisconsin Plating's Quality Management System complies with the revised standard.

This international quality certification makes Wisconsin Plating part of a minority of North American companies to accomplish this honor, as only 1% of United States manufacturers have earned this designation.

Wisconsin Plating, established in 1919, is a third generation family owned and operated commercial job shop metal finisher specializing in electroplating of Zinc, Zinc/Cobalt, Zinc/Nickel, Tin, Copper, Nickel, and Chrome.
